

A close-up, high-contrast image of a person's eye. The iris is replaced by a glowing, cyan-colored globe of the Earth. The eye is looking slightly to the right. The surrounding skin and hair are in deep shadow, with highlights on the forehead and cheekbones. In the lower right corner, there are three more glowing cyan globes of the Earth, arranged in a cluster. The overall color palette is dominated by cyan, blue, and black.

A close-up photograph of a hand holding a textured, brownish object. The hand is positioned on the left side of the frame, with fingers gripping the object. The object has a rough, fibrous texture and is held against a dark blue background. The lighting is soft, highlighting the textures of both the hand and the object.

Memorable touchpoints

A glowing blue human figure is shown from the chest up, with arms raised holding a glowing blue DNA double helix. The background is a dark blue space filled with stars and faint, glowing lines. The text "Find the MRNA" is overlaid in white, bold, sans-serif font across the center of the image.

Find the MRNA

A woman with long blonde hair, wearing a white sleeveless dress with a ruffled skirt, stands in a grand, classical building with large columns. She is surrounded by numerous large, colorful balloons in shades of white, yellow, and light blue. She is holding a yellow balloon string. The scene is brightly lit, suggesting a festive or celebratory occasion.
